WHY TURKMEN ENERGETIKA

Turkmenistan is one of the fastest growing economies in the world.

Turkmenistan is one of the world's largest energy exporting countries.

Turkmenistan is an important market for the whole world with its billion-dollar construction and infrastructure projects.

The city of Awaza, which was created to develop the country's tourism, receives investments worth billions of dollars.

Turkmenistan has become the logistics base of Central Asia with the port built in the Caspian.

Turkmenistan is a country that offers opportunities in many sectors such as oil and gas, construction, telecommunications, tourism, health and food.

The Ashgabat City smart city project, which is planned to invest 14 billion dollars, will contribute to the construction industry.
